

A full-page photograph of two women posing in maroon athletic wear. The woman on the left has long blonde hair and is wearing a maroon sleeveless zip-up vest over a matching crop top and leggings. The woman on the right has dark curly hair and is wearing a maroon sleeveless crop top and shorts. They are both smiling and looking towards the camera. The background is a plain, light grey.

Court Sports

Lightweight performance with textile sophistication.

Pitch •

It combines sophistication and versatility, adapting to different commitments throughout the day. A knit fabric designed for garments that transition seamlessly from the gym to everyday wear — without compromising comfort or elegance.

The knit fabric that captures the essence of the tenniscore trend and elevates it with high-value technical attributes.

Technology that delivers a silky, smooth, and cool hand feel — a true sensory experience when worn.

Developed for those who seek the assurance of a highly durable product — without compromising comfort and premium design.

Its **ripstop** structure ensures durability, a pleasant hand feel, and a comfortable fit.

Durability combined with a comfortable touch and an elegant aesthetic.

Ripstop: tear-resistant construction. A yarn interlacing technology that forms a grid structure designed to prevent the spread of tears (Rip: tear | Stop: stop), engineered to provide greater resistance to tearing. Additionally, it offers high abrasion resistance, making it ideal for garments intended for intensive use.

Zurich .

With its modern grid texture, Zurich delivers a structured drape for those seeking a versatile knit fabric with a distinctive high-performance look.

42336 Trekk • Silky hand feel, sophisticated look, and structured comfort.

[BENEFITS]

Sophisticated Structure:

Woven fabric construction with comfortable stretch, delivering performance without restriction.

durability.

ALL DAY TECH •

Durability, comfort, and a sophisticated aesthetic in harmony.

ALL DAY TECH is a product line developed from the strategic combination of three previously presented fabrics: Zurich Knit, Pitch, and Spin. The result is garments designed for continuous wear throughout the day — solutions that meet the demands of the casual, active, and all-day wear segments.

ZURICH. PITCH. SPIN.

ALL DAY TECH

The future of
functionality.

A concept designed to
meet the demand for truly
multifunctional apparel.
Garments that deliver the
performance and comfort
of sport technologies with
the sophisticated aesthetic
required by urban and pro-
fessional routines.

Camisa Masc 100581 - Spin 42329
T-shirt Masc 100286 - 42246 Pitch
Pants 100353 - Italy

Camisa Masc 100581 - Spin 42329

A sophisti-
cated touch
with a refined
aesthetic.

Technologies such as dry,
breathability, and easy care
(wrinkle-resistant) simplify the
routine and ensure comfort in
any situation.

The perfect union of
technology, quality,
and **functionality**
for your everyday life.

The key to modern apparel lies in
the intelligent combination of
technologies that meet daily
demands.

Polo Masc 100582 - 42246 Pitch

Where We'll Be

We're on the move, bringing technology, innovation, and sustainability to the textile market.

These events bring together yarn manufacturers, woven and knit fabric producers, as well as designers and printers, suppliers of trims, machinery, and software — creating a strategic platform for business and connections within the Latin American textile sector.

Find out where we'll be present in 2026:

📍 Colombiatex
27 a 29/01
Medellín

📍 Agrestetex
14 a 17/04
Caruaru

📍 ONDM
13 a 14/05
Goiânia

📍 ONDM
21 a 22/07
Fortaleza

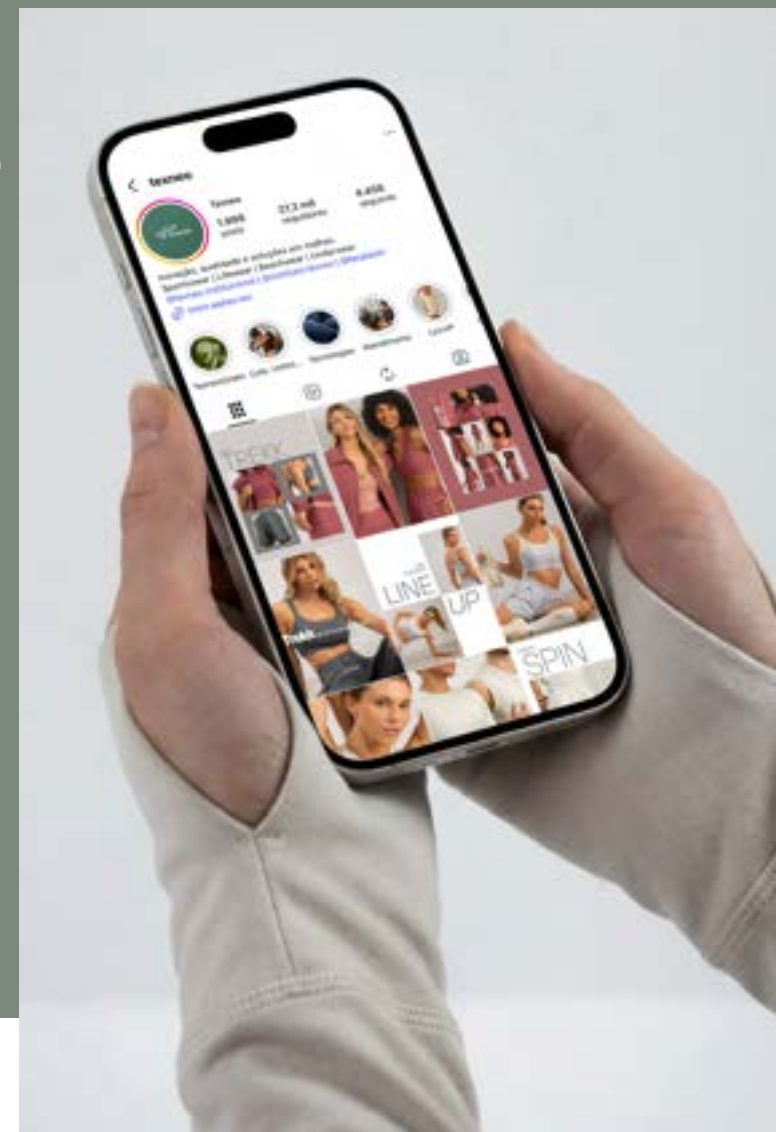

📍 ONDM
20 a 22/10
Balneário Camboriú

Our Channels

Our channels move at the rhythm of the world.

On Instagram and on the Texneo website, we share our products and launches, ideas, trends, and inspirations that connect creativity, innovation, and market movement.

Our Materials

[Texneo moves with the world.]

Texneo is always in motion. We move with the world. Our focus is on the present and the future, where every development translates into innovation, comfort, quality, and environmental responsibility. We create the most versatile and technological knit fabrics in LATAM — fabrics that breathe technology and awareness. Discover some of our materials and sales support content.

Our Tags

We deliver value in every detail, and our product tags are proof of that. Developed to highlight technologies and differentiators that make each garment unique.

Trends & New Releases

Texneo consistently shares content about trends and market movements, connecting information, inspiration, and innovation. By supporting the creative process, we help transform ideas into creations aligned with consumer behavior.

OUR TECHNOLOGIES

 TEXNEOGREEN TexneoGreen represents Texneo's commitment to sustainability, bringing together products developed through additional processes that promote production efficiency and reduced environmental impact.	 AIR High-performance fabrics with moisture management properties, promoting breathability and sweat evaporation while helping regulate body temperature and delivering comfort during wear.	 LOW TRANSPARENCY Ensures garments are less transparent, even when stretched, providing safety, comfort, and confidence.	 EXCLUSIVE DESIGN Printing developed with innovation and technology to offer creative freedom and personalized patterns through Texneo's Design Studio.
 RECYCLED POLYESTER Produced with recycled polyester made from recycled plastic bottles, transforming waste into raw material and contributing to pollution reduction while promoting sustainability.	 BIOAMIDE Sustainably developed yarn made from renewable sources, reducing petroleum use and CO₂ emissions by up to 50% without compromising performance and comfort.	 HIGH COVERAGE Knits with high opacity that provide greater security and comfort, preventing the body from showing through and ensuring a refined finish.	 INFINITUDE OF COLORS Advanced dyeing process that ensures vibrant, intense, and durable colors with high color fastness and resistance to fading.
 RECYCLED POLYAMIDE Premium recycled synthetic fiber, lightweight, breathable, and soft to the touch — ideal for garments that combine comfort, elasticity, and durability.	 INK Fabric dyed directly in the yarn, eliminating traditional dyeing processes that use large amounts of water and chemicals, making it a more sustainable option.	 FOUR WAY STRETCH Fabrics with elasticity in both warp and weft directions, offering flexibility and freedom of movement while maintaining structure and recovery.	 ECOLOGICAL PROCESS Production with sustainable practices, reducing waste and environmental impact throughout the manufacturing process.
 HIGHCLO Technology that provides greater resistance to chlorine, increasing garment durability when exposed to swimming pools and chemical products.	 DURABILITY Fabrics engineered to maintain quality and resistance even after multiple washes and intensive use.	 MEDIUM COMPRESSION Knits with medium compression that provide muscle support and shaping, ideal for performance garments that require comfort and stability.	 LES CO₂ Sustainable technologies and raw materials that significantly reduce greenhouse gas emissions during textile production.
 ANTIMICROBIAL Developed with advanced technology to inhibit the growth of microorganisms such as bacteria and fungi. Receives a special treatment that ensures greater hygiene, durability, and odor control.	 DRY Technology that accelerates moisture absorption and drying, providing greater comfort and keeping the skin dry during physical activities or high temperatures.	 HIGH COMPRESSION Knits with high compression that enhance muscle support and performance, ensuring comfort and stability during sports activities.	 LESS CHEMISTRY Eco-friendly processes that minimize the use of chemical products, ensuring safety for both skin and the environment.
 DOES NOT WRINKLE With No Wrinkle technology, fabrics are designed to maintain their appearance even after prolonged use, offering practicality and reducing the need for frequent ironing.	 EASY CARE Fabrics designed to simplify daily care. With advanced technologies that minimize creasing, reducing the need for frequent ironing and ensuring practicality and comfort.	 PLAIN Indicates fabrics with a smooth and uniform surface, delivering a clean and sophisticated aesthetic.	 LESS WATER Production optimized to reduce water consumption through sustainable processes that minimize environmental impact.
 THERMIC Fabrics with technology that helps maintain balanced body temperature, providing thermal comfort in different climate conditions.	 SOFT TOUCH Characterized by a velvety surface and smooth hand feel, delivering comfort when in direct contact with the skin.	 TEXTURE Refers to fabrics with surface relief, patterns, or tactile effects that provide differentiated touch and unique visual appeal.	 PRO Developed for high-performance garments, offering breathability, quick drying, compression, muscle support, and temperature balance.
 SUPERLIGHT Indicates fabrics with reduced weight, maintaining quality and durability. Ideal for comfortable garments with high performance, offering lightness without compromising resistance.	 UV PROTECTION Fabrics with UV Protection that block up to 98% of UVA and UVB rays, offering enhanced protection for the skin during sun exposure without compromising comfort.	 R-GREEN Polyamide yarn containing 50% pre-consumer recycled waste, reducing CO₂ emissions by 50% and reinforcing commitment to circularity in textile production.	 SKIN Knit fabric with a soft, smooth hand feel that gently adapts to the body, offering a second-skin effect with comfort, mobility, and durability.
 ZERO TRANSPARENCY Knits with high coverage and density that prevent transparency in garments, ensuring safety and confidence in use.	 DIGITAL PRINT Uses advanced printing technology, allowing vibrant colors and high-definition details with greater control and a more sustainable production process.	 WATER REPELENT Finishing technology that prevents water absorption, protecting against liquids and moisture while maintaining breathability and comfort.
